“How can I safeguard my business from check fraud simply and efficiently?”

Catch check fraud early to avoid costly losses.

Enter Positive Pay, a service designed to protect a business from altered, forged and counterfeit checks.

Your business should not be subject to a security disruption or the loss of operating cash. Our fraud mitigation tools are designed to make it easier for you to monitor your transactions so you can stay a step ahead of threats to your business's finances.

Here’s how it works:

1. **Match and Verify**
When checks are presented for payment, we verify that the details of each check matches the information you’ve provided to the bank beforehand.

2. **You Are Alerted**
If the checks presented do not match the information provided, we will notify you of the exception items.

3. **You Decide: Pay or Reject**
Using your check information, you are able to view a digital image of the check and decide whether to pay or reject the item being presented.

Ready to secure your business and gain an edge on fraud?

We’re ready when you are. Our local team is right down the street to guide you through set-up, training and ongoing servicing. We’re with you all the way. Visit us at FirstUnitedBank.com/treasury-management
